

# WE GET YOU PAID!

Talking about what we will do for your practice only goes so far. We need to show it. Take a look at how our current clients benefit from working with a PT-owned billing company.

## How Quickly Do You Get Paid?

100%

<30 Days

As of today, 100% of Collectivity's clients are at or under 30 days in A/R. When compared to a national average in excess of 40 days, switching to Collectivity can put 10 days worth of revenue back in your operating account instead of in the pockets of the insurance companies. How would that change things for you and your business?

## Our Buckets Are The Best!

The percentage of money that you have in each one of your A/R buckets is a good indicator of the health of your cash flow. We give our clients a snapshot of their buckets every month and use it as a starting point for a conversation.

## Free Money!

Established practices that switch their billing and collection services to Collectivity often see a significant increase in collections per visit in as soon as 90 days. At some clinics, like Ashland and Hopkinton Physical Therapy in Massachusetts, we are able to deliver over \$5 per visit with no additional cost!

\$0.00

Collectivity set-up fees. We only get paid if you do.

## We Are Customers, Too

Collectivity is a division of ProEx Physical Therapy, a fifteen clinic practice in New England. The same systems, processes and people that helped us along the way can do the same for you.

Tired of the hard work of you and your staff not being valued by insurance companies? Collectivity is a PT owned and operated billing company, and our goal is to get you paid quickly and appropriately. Because we know the value of the care you provide.

Want to see if Collectivity can help? Call us or email us!
